"The Geeloger dynasty" of the late Koen Minderhoud

With the death of Koen Minderhoud on 9 October 2022, we said goodbye to one of the greatest icons in international pigeon racing. Koen achieved impressive results on his own loft himself but also had a family of pigeons with which fanciers succeeded in all corners of the world. With pigeons from Gaby Vandenabeele at the base, supplemented with a touch of Dirk Van Dyck and Broeckx-Van Hees, a strain of pi-

geons was forged that proved almost unbeatable. Top pigeons such as "Daniel", "Spirit", "Barney" and "Goudklompje" still ring like a bell. Koen's last big phenomenon became the "Geeloger", a legendary winner with 3x 1st prizes NPO/provincial in a short time and stock pigeon of the last generation Minderhoud.

How it all started

Born and raised in Westkapelle, Koen came into contact with pigeon racing as a small boy. The local pigeon association was located in an ex-German bunker and this caught young Koen's attention. He was barely 5 years old at the time and became a welcome guest in the pigeon club. Of course, he was able to get a few pigeons from several fanciers to start, but Koen's father Minderhoud was not very keen on keeping pigeons. After some insistence, Koen was allowed to keep the pigeons and a small box was placed on a pole. Later, a better loft was placed in the garden and Koen got to know the ins and outs of racing pigeons.

In 1963 as a 19-year-old boy, Koen became an independent racing member of pigeon club "De Zwaluw" and besides being an avid footballer, he also became an avid pigeon fancier. Like many others, when he started his own loft he also had pigeons from well-meaning donations from neighbourhood fanciers. Koen soon realised that all those different pigeons would not be the quickest way to success and a short time later, he was already riding to fancier Simon Kodde from Veere, one of the best fanciers at that time. With some extra money in his pocket, earned through overtime in his father's business, he bought the very best from Simon. This made the performance much better. And also in the mid-sixties, pigeons were bought from fellow townsman Willem Minderhoud who already had the best Belgian strains on his loft. Koen was also very satisfied with these but wanted even better. He found that with Toon Dalebout in Nieuwerkerk whose colony was partly based on pigeons from Staf Dusarduyn (Groede), Delbar (Ronse) and Staf de Wever (Schoondijke). In those days, Dalebout's pigeons could compete with the best of Southern Netherlands. Koen was delighted with this and continued to purchase pigeons from Toon Dalebout for many years. With these pigeons and Koen's insights, a period of success had already begun and Koen flew several provincial first prizes. He even bred a real champion bird namely his "36" which even won two provincial first prizes. Koen was already a real winner and farmer Toon Dalebout saw this very quickly and therefore took great pleasure in helping this young fancier to get good pigeons. In the 2nd half of the 70s, Koen got busier and busier with his own metalworking business but always continued to race well with pigeons. Around the mid-80s, Koen went to Tiny van Herpen from Den Bosch. Fancier van Herpen was then, with his Janssen pigeons, the terror of the province East Brabant. Koen got them a.o. from the "64", "Onze Jongen" etc. Up to 400 km, these pigeons

did fine on the lofts of Koen. Some pigeons from other lofts such as Jo Melis and L. van Hove also joined the strain. You can't imagine it, but at the end of the 1980s, Koen chose another hobby or rather a hobby in addition, namely sport fishing at sea. His football career had ended before then.

Yes, Westkapellenaars have been shaped by the sea, sometimes as an ally, sometimes as an enemy. This is beautifully depicted in a painting by Charley Toorop, showing the chunky types, shaped by the whims of the sea, at the bar. So Koen too wanted to go out to sea to fish, but after doing so for several years, pigeon racing came to the fore again. Koen resolutely put away his fishing gear and went 100% for pigeon racing. Incidentally, he had continued to race very well during his "fishing period". Nevertheless, the moment he decided to go back for 100% for the pigeons, he again set very high standards for himself and only wanted pigeons that performed from 100 to 700 km. Because he had followed the sport closely, he chose the colony of Gaby Vandenabeele from Dentergem. In 1991, the first contact was made and the first two eggs from the legendary "Wittenbuik", which was still in the racing loft, came to Koen's loft. From 1992 onwards, many pigeons were then bought annually from Gaby Vandenabeele. These pigeons perfectly fulfilled Koen's requirement to fly head-to-head from 100 to 700 km. In that period, the colony was expanded with pigeons from Gaby Vandenabeele.

From their own old lines, especially two daughters of the well-known "De Blinde" of Koen, then coupled with a daughter of "Onze Jongen" of van Herpen remained in the strain, namely the "Chateauroux duifje" and the "ZNB duifje". The "Chateauroux duifje", for example, is the mother of Koen's famous "Spirit". Nevertheless, Koen kept his ears and eyes open and kept looking for the pigeon that could improve his strain. We mention the pigeons brought in that are of great influence on the current strain. In 1996, a cock from Leo Broeckx. Oud Turnhout. It was a brother of his Olympiad pigeon "Mr. Basel". From the purchases at Dirk van Dijck, Zandhoven, a very good hen B01-134 remained, daughter 'Kannibaal' and full sister to 'Golden Lady' of Koopman.

In 2003, a fine hen came over from Eddy Leutenez. A bit later, from Gebr. Engels, Putte, also some pigeons were bought a.o. out of "178" and these crosses have also been very successful.

There is the phenomenal "Geeloger"

The most eye-catching contributions are of course two daughters of Albert Derwa's "Paulien" sired by "Valentino". Notably, the BE10-2007026 "Fransiska" became the mother of the legendary NL11-3014703 "De Geeloger" when she was paired with the NL05-0514804 "De Gebroken Vleugel".

And with that NL11-3014703 "De Geeloger", we have arrived at the first basic pigeon that quickly developed into one of the stock pigeons of the current colony. For the sake of completeness, his best prizes from season 2013:

Here is "Top Kweker 170"

Another very important basic pigeon stock pigeon is the NL10-3011170. "Top Kweker 170" and then we are at the what Koen named the "Turboline". The father of that NL10-170 is the NL02-0209017 "De 017 Willem" a cock with almost a complete Minderhoud/Vandenabeele pedigree out of "Halfbrother Son Daniel". That 02-017 was then paired with NL05-0508670 a top breeder from stock pigeon "De 522" x "Barney 742".

Before introducing some children of "De 170" to you, we first note his own achievements as a racer.

"De 170" won a.o.

"The Late Turbo 608" is unfortunately no longer around, but a son of him flew e.g. fastest of Peronne in Zeeland against 7005 pigeons. Also the sons NL14-261 "French Turbo" and the NL14-297 "Turbo 297" both already flew a first prize. Absolutely the best son to date out of "De 170" is a full brother to "Late Turbo 608" the NL11-3014705 "New Turbo". Their mother is the NL08-3812041 "Dagfondduifje 041" (out of "Gebroken Vleugel" x "Engelsduifje 552"). The 08-041 won several Ace titles and was a top flyer.
