Beste sportvrienden,

Wat gaat de tijd toch heel snel...ongelofelijk dat we nu al brochure "Racing To 2026" editie aan het bewonderen zijn. Wat ons heel veel plezier doet is dat ondanks alle digitalisering onze brochure zijn succes blijft behouden, maar liefst 99 liefhebbers schreven zich voor deze editie in. Een bewijs dat deze 136-pagina dikke brochure meer dan zijn werk doet en zeer sterk geapprecieerd wordt in de internationale duivenwereld. Het bewijs dat onze manier van promotie voeren zeer doeltreffend is en dat zowel de lezende als de deelnemende liefhebber al sinds verscheidene decennia uitkijkt naar de nieuwe editie van onze brochure.
Dank voor jullie vertrouwen!

Binnenkort start het beursseizoen en met fierheid gaan we brochure "Racing to 2026" gratis verdelen aan de bezoekers en ook tijdens onze bezoeken aan buitenlandse klanten zal de brochure steeds met de nodige uitleg afgegeven worden. Dit is dan ook een van de redenen dat "Racing to 2026" in het Chinees vertaald wordt en via belangrijke sociale media zoals Facebook, Whatsapp, Line, WeChat wereldwijd gepromoot zal worden.

En inderdaad, net zoals vorige jaren zal midden juni 2026 een internetveiling plaatsvinden waar alle deelnemers aan "Racing to 2026" de mogelijkheid geboden wordt om 3 duiven uit hun toppers, welke gepromoot werden in "Racing to 2026", te verkopen. Reeds zeer veel liefhebbers zijn zeer succesvol met duiven aangekocht in deze verkoop.

We wensen u veel leesplezier met "Racing to 2026" en staan steeds tot uw dienst om u te helpen met een eventuele aankoop/verkoop van duiven. Laat onze ervaring in zowel de handel als in het spel met de duiven zelf, uw ideale hulp zijn om aan uw wensen te voldoen.

Met sportieve groeten!
Miet en Jo Herbots

Dear sports friends,

How quickly time flies... it's unbelievable that we are already admiring the "Racing to 2026" brochure edition. What gives us great pleasure is that, despite all digitalization, our brochure continues to be successful: no fewer than 99 fanciers subscribed for this edition. Proof that this 136-page brochure more than does its job and is highly appreciated in the international pigeon sport. It shows that our way of promoting is very effective and that, for decades already, both readers and participating fanciers eagerly await each new edition of our brochure.
Thank you for your trust!

Soon the exhibition season will start, and with pride we will distribute the "Racing to 2026" brochure free of charge to visitors. During our visits to international customers, the brochure will also be handed out with the necessary explanations. This is one of the reasons why "Racing to 2026" is being translated into Chinese and will be promoted worldwide through important social media channels such as Facebook, WhatsApp, Line, and WeChat.

And indeed, just like in previous years, in mid-June 2026 an online auction will take place, where all participants of "Racing to 2026" will have the opportunity to sell three pigeons from their champions that were promoted in the brochure. Many fanciers have already achieved great success with pigeons purchased through this sale.

We wish you much enjoyment reading "Racing to 2026" and remain at your service to assist you with any potential purchase or sale of pigeons. Let our experience, both in trading and in the sport itself, be your ideal support in meeting your wishes.

With sporting regards,
Miet and Jo Herbots

PIGEON BIDS

(Snellegem)

POLLIN MARC & GEERT

On March 2, 2025, well-known champion Marc Pollin from Snellegem passed away at the age of 78. For Marc, pigeon sport meant working with a strategy and always investing in the future of the colony. For that reason, with one exception, no top birds were ever sold - instead, they were given a box in the breeding loft. World-famous Pollin champions - or better said, "Pollin icons" - include "De Perpignan", "Dortmunder", "Mortifer", and "De Limoges." Thanks to their breeding performance, Marc and Geert could - generations later - take pride in the achievements of pigeons like "New Belgian Pride", "Joe", "Brother Joe", "Cadel", "Bruce", "Montauban II", "Limo 301", "Brutus", "Mister Jarnac", "Michiel", and many others.

This internetauction starts on November 23 and ends on December 2 and 3 at different closing times.

BEYERS CONDITION & CARE

RECOVERY

PREVENTIVE AFTER-CARE, RECUPERATION AND RECHARGING.

Exertion is always followed by a recovery period, followed by a build-up phase leading up to the next exertion. During the racing season, preparation for the next flight starts immediately when the pigeon comes home from the previous flight, or preferably even during the preparatory flights for the actual flights that matter to the fancier.

In many cases, too little attention is paid to the recovery period. There is much more to it than topping up the store of energy and quenching thirst! All of the pigeon's body cells have to be restored to their natural balance.

By making up the deficiencies (proteins, minerals and vitamins) which will have arisen when the pigeon comes home from a prolonged effort with a modified, easily digested, high-protein mix (e.g. **PREMIUM HI-DIGEST ENERGY**) together with a suitable supplement, we ensure faster recuperation. Recharging therefore means replenishing the deficiencies arising from exertions. Recovering from the imbalance. This has to be done before it makes sense to proceed to the build-up phase, focusing on energy by means of carbohydrates (muscle glycogen, glucose) and fats.

Protein needs or amino acid needs?

Proteins are the body's building materials.

Proteins are made up of amino acids: essential, non-essential and semi-essential. The body is unable to produce essential amino acids. They therefore have to be provided in the diet (pigeon mixtures or supplements).

A biologically complete protein contains all essential amino acids in sufficient quantity to satisfy pigeons' protein needs. In sufficient quantity such that pigeons do not form a reserve of amino acids and there must be a limiting amino acid, that is which is least present in the diet and which therefore determines how much "new" protein can be formed (cf. Liebig's minimum ton).

The limiting essential amino acids for pigeons are lysine, methionine, tryptophan and arginine.

Minerals and oligo- elements

Minerals are very important for a well functioning metabolism. Among other things, they ensure the development of the muscles, bones, skin and feathers and play an important role in various physical processes.

The most important electrolytes for pigeons are: calcium, phosphorus, magnesium, sodium and potassium. This is because there may be a deficiency of these minerals in grain mixtures. Electrolytes speed up recuperation, there is thus no point in administering them for preventive purposes.

RELOAD

LIQUID SOLUTION CONTAINING THE MOST IMPORTANT AND ESSENTIAL AMINO ACIDS, ELECTROLYTES, MINERALS AND TRACE ELEMENTS.

- Contains the main essential amino acids for pigeons: lysine and methionine, which boost the effectiveness of the proteins in the feed, and glutamine, which is important for the muscles and is regarded as a major food source for the intestinal cells.
- By eliminating waste products from the body thanks to the addition of choline and by replenishing consumed salts (potassium chloride, sodium chloride) and minerals (calcium, magnesium), this will help your pigeons to recuperate faster.
- Sodium selenite is a source of selenium, which is an essential trace element in the diet and supports good metabolism. Other oligo elements in chelate form (zinc, copper) ensure optimal absorption of the nutrients from the feed.
- Fast (dextrose) and slow sugars (maltodextrin) provide an energy boost after their return.

Instructions:

- All year round: 30 ml / 2 l drinking water.
2 x per week. During the racing season: the first 2 days after homecoming.
Up to 9% of the daily ration.

Campanini Luca

Luca's racing pigeon career began in 1997, the year he began competing in the "Ala Santangiolina" group, one of the best groups in Northern Italy, thanks to the help of several fanciers who donated their pigeons.

The results were not long in coming, and Luca established himself as one of the most promising fanciers on the national scene. His first significant national results came in 2000, and from then on, he achieved a succession of excellent placings and victories, including 1st NAT. OLR Itali F.C.I. FINAL 500 km and 1st ACE Pigeon the following year (also in the national OLR).

In addition to impressive club appearances from 2011 to today, Luca has brought 23 pigeons to the Olympics (13 of which in the "sport" categories) in various countries and won the best ACE Pigeon nationally in various categories (all-round, middle distance, short distance, yearling, young birds).

Here are some of the highlights of the 2025 sporting year (the widowers' competitions have just concluded):

- 1° Middle distance championship group 2025
- 4° Short distance championship group 2025

Lisocur+

A complete product with plant extracts, essential oils, and all necessary supplements to maintain the immune system.

Miobol

Supports muscle function and increases muscle volume from hatching to fledging. For supporting flight performance and ensuring quick recovery after a flight.

Roni

Our unique formula creates a protective mucus layer of special carbohydrates in the mouth, throat, and digestive system, making the pigeon more resistant to infections.

Stopmite

A clean environment contributes to strong health and a shiny plumage. Ensures optimal hygiene in your pigeon loft and helps promote the health of your pigeons.

Curol

Curol is a carefully formulated health oil with a unique blend of natural active aromas and essential fatty acids that support the health and performance of your pigeons at every stage of their lives.

Because these products reinforce each other,
you only need one tablespoon per kg of feed for each product.

A Bloodline Based On The Ancestors Of World Famous Olympic Rico

The origin is the exceptional strain from **Antoon Neven**, Lummen in Belgium. Antoon bred "New Niki" the mother of Olympic Rico which he gave to Vrancken - Berden. What came after this was the well known history of Olympic Rico.

Antoon had a superb cock which he called Sabatini. Sabatini flew fantastic results, 4 times 1st price and many other peak results. In his last breeding action Antoon coupled **Sabatini** up with **Niki**, a hen which won 1st Prov.Chevrainvilliers. Niki is a direct daughter of **Terpstra** another superb cock from Antoon which flew 5 times 1st price and turned out to be an exceptional breeder as well. Terpstra is also the father of "**New Niki**" which is the mother of Olympic Rico. And to make the circle fully complete, Terpstra is the half brother from Sabatini.

Markus Mühling, a good friend of ZG Bonsemeier / blue-indigo, had a great connection to Antoon. As a result, before his total auction in 2019, Antoon paired his very best pigeons together especially for Markus. This was the very last generation of Antoon's success-filled bloodline and the final move in his exceptional pigeon sports era. Among these birds were two Youngsters from the pairing Sabatini x Niki. These two Youngsters found their way into the lofts of ZG Bonsemeier / blue-indigo.

This turned out to be true fortunate circumstances as those 2 Youngsters emerged to be an **AS pigeon factory**.

They provided

All AS birds made their way back to the lofts of ZG Bonsemeier / blue-indigo and will continue to breed within their AS pretension.

Beside the exceptional descendants of Sabatini and Niki, ZG Bonsemeier / blue-indigo are able to count themselves lucky to be well stocked with an **outstanding original Antoon Neven birds collection**. There is Evenepoel, the best performing son from Terpstra ever which flew 5 times 1st price. There is 1st price winner James Knox which is a half brother to Terpstra. Direct children from 5 times 1st price winner Museuw as well as direct children from 3 times 1st price winner Lampaert 1. And as an icing on the cake their friends Jo Larbie and Carlo Luyten allocated them with **3 full siblings from "New Niki"** the mother of Olympic Rico.

A Hidden Gem: Extraordinary Breeding Couple 821 x 886

It would go far beyond the scope to fully capture the achievements of the offspring from this one-of-a-kind breeding couple. Their descendants have claimed countless 1st prices, championship titles, DBA superstar nomination, Olympiade pigeons, OLR race victories, and ace pigeon honors at club, regional, and national levels across multiple countries. This couple belonged to an **absolute elite of breeders** - their children, grandchildren, and great-grandchildren win races over all distances and under the toughest conditions. They are not pigeons for short, medium, or long distances - they are true all-rounders, relentless competitors, and born champions. We are talking about the legendary foundation pair **821 x 886**, from **Friedhelm Bleibtreu** in Dortmund.

Friedhelm never sought fame for the bloodline of his foundation couple, yet it became more and more renowned far beyond the Ruhr region - and that is for some real good reasons - the descendants flew by far more than 100 1st prices - that became public.

The hen 821 is a granddaughter of the legendary Mister Blue from Pieter Veenstra. According to Friedhelm, the true magic of her lineage comes from the genes of Magic Man (Gerard Koopman), through Annelies (sister of Kleine Dirk) via Golden Lady, her bloodline traces directly back to perhaps the greatest breeding pair of all time: De Kannibaal and Zus Rambo from D. & L. van Dyck. Her partner, 886, contributes the genes of the Beatrix Doffer (Koopman) and the famous "Ringlose" from Günter Prange.

ZG Bonsemeier / blue-indigo maintain a close friendship with Friedhelm. Several direct offspring of 821 x 886 entered their lofts and immediately made impact, achieving OLR victories, ace titles, 1st prizes at club regional levels, and even producing three Olympiade pigeons in 2024 for Guido Bonsemeier in Maastricht.

Some remarkable examples from other lofts include: 4005-19-482: In 2022, this bird flew 12 prices in 12 races at SG Feldotto's loft, placing 1st, 1st, 2nd, 2nd, 2nd, 5th, 10th, 10th, 11th, 13th, 59th, and 63rd, ultimately becoming the 3rd ace cock at the national level in Germany. CH-22-4721: Bred by Guido Bonsemeier and raced in Urs Zehnder's loft in 2023, this bird became the 6th ace cock at the national level in Switzerland placing 1st, 1st, 1st, 9th, 10th, 26th, 38th, 46th, 52nd, 57th, 66th price. 4005-20-172: The crowning farewell achievement in the last season of Friedhelm's 70 years racing pigeons sports career. This pigeon flew 1st, 1st, and 2nd consecutively within three weeks, earning the title of 1st ace pigeon of July 2023 at the German federation level.

When Friedhelm had to release all his pigeons in 2024 as part of a total auction, a rare opportunity arose to preserve this legendary bloodline. So the core of his breeding pigeons moved to the lofts of ZG Bonsemeier / blue-indigo, which today house over 60 original Bleibtreu pigeons - including **15 direct children** of the legendary foundation hen 821.

It is not just a bloodline - it's a legacy of champions, a testament to endurance, toughness, and **unrivaled breeding excellence**.

The best of Herbots

Since 2010, the offspring of my breeding pigeons have won ACE pigeon titles, national and regional championships, as well as countless top prizes at my partner lofts in five European countries!

Quote from the renowned Belgian magazine "De Duif" dated April 24, 2024: **"Rainer has one of the best breedinglofts of Germany"**

The breeding base in Hattorf consists of:

Children of the current top breeders of **Luc van Mechelen**

Children and sisters of the ACE and Olympic pigeons of **Patrick Lismont**

Two children and two grandchildren of the exceptional bird **"Supreme"** from the **Herbots brothers & Johny Jonckers**

One daughter and three grandchildren of the No. 1 breeding pair **"Superman"** x **"Super Leonie"** from **Sabrina Brugmans**

Last but not least, my outstanding **"Solveig family"** (**Bart & Nance van Oeckel**). Their children and grandchildren have won more than 400 prizes in the top 10% of the rankings and are top sires with many breeders in Europe.

Breeding takes place in Hattorf from only 10 pairs

Trophies are passed down from generation to generation and stay in the family – just as entrepreneurial flair and a passion for trophies has stayed in the Toulet Van Bael family.

The current heads of the business, Michèle Van Bael and her husband Luk Van Den Haute, represent the third generation. They carry with them the knowledge and experience of the past, but customer focus and a keen interest in innovation and new market developments are also second nature to them.

Today, the firm's customers are not just sports clubs and organisations: businesses also come to Toulet Van Bael for awards, business trophies and other items.

We like to take the time that is necessary, for this reason we ask you to make an appointment.

The base breeders come from the very successful family from NEW EURO DV7462-14-432:

1. Nat. Ace Germany best Olympiad YB

5. Olympiad Budapest Cat. F, which is now breeding very successfully in the loft from Hans & Evert-Jan Eijerkamp in Holland. A direct son from NEW EURO has become 1. Provincial winner against 7.594 pigeons. In addition Heinz and Siegfried Müller were able to obtain in 2016-2017 sons and several inbreeding grandchildren from the world famous Harry from Jan Hooymans from Kerkdriel /Holland. There are also grandchildren from brothers/sisters from the world famous Harry breeding in Müller loft. Their children have obtained very fast several 1. Prizes. A special highlight arrived in Oktober at the breeding loft from Heinz & Siegfried Müller, with a direct son + 3 grandsons from Kittel from D. van den Bulck (1st Nat. Ace Pigeon KBDB 2013).

Champions choose Habru

For more info look at the photobook on:
www.habrupigeonsport.co.uk

SPUTNIKS

Habru **Sputniks**;

Developed by and for champions

With the Habru Sputniks 'floppy construction sets' are a thing of the past. Habru developed an innovative product with best quality. With a break-proof glazing and long- welded connections Habru's excels in solidity. All models are suitable for every electronic system of clocking.

AVIARIES

Habru **Aviaries**;

Long-lasting and functional Made-to-measure work

Habru aviaries make a difference because of their long- lasting character! A result of welding the modules and using a higher quality type of wire mesh than other aviaries. They can be completely adapted to the wishes of the customer, made-to-measure work is guaranteed! Habru aviaries are more and more regarded as a replacement of traditional pigeon lofts.

AVIARIES

Type **fly-in and out**

Habru **model fly-in and out**;

Simple and functional

An aviary and sputnik in one – that is the Habru model fly-in and out. The pigeons fly to the front of the aviary and directly land upon the sputnik, which is integrated into the sloping roof. The sloping roof makes it hard for pigeons to sit on it. For that reason we developed the sputnik as a landing- platform. In this way no time is wasted.
